Comments:

I called [Redacted] and She said Advanced Disposal is no longer a problem, it was the company that was handling the methane gas. She said there is mud on the road from trucks from another facility and the mud froze and a car slid at a stop sign.

Tip or Complaint: Hello, this is my third complaint. While the first two were regarding Calo & Sons Trucking Company and silica dust Calo is blowing toward our houses, this complaint is about our Landfill one mile down the road from us. All afternoon today we smell a strong methane odor. This is happening now on a regular basis. So, we already have arsenic level in the ground higher than normal; we have silica; and now we have methane gas poisoning us. Please come to Salem Township and help us. Our township don't care about our lives. Please, please help us! Thank you!

Specific Directions: Napier Rd between Six Mile and Five Mile
